INSTITUTES ACHIEVEMENT

With a view to conserving water for the future, the Prime Minister launched a new initiative named Mission Amrit Sarovar on 24th April 2022. The Mission is aimed at developing and rejuvenating 75 water bodies in each district of the country as a part of the celebration of Azadi ka Amrit Mahotsav.

India faces a serious and persistent water crisis owing to a growing imbalance of supply and demand, as well as poor water resource management and climate change. The alarming rate of groundwater depletion is also a cause for serious concern.

In this research, we are undertaking the documentation of Mandapeshwar caves, and discussing the interventions that can be implemented to rejuvenate the rock-cut cisterns present on the site.

About the Instructor:

Mr. Dhiraj Salhotra is a well qualified Architect and a Senior Academician with more than 20 years of teaching experience.

Currently leading Thakur School Of Planning and Architecture as a Principal.

He has played a pivotal role in shaping the architecture education by being an active syllabus committee member for various Architecture domains.

His key contribution towards Education is through his seminar, workshops, research papers.

He has conducted many teachers training programs guided many colleges for improvement in Education systems.

Above all he is the most respected and favorite professor for design and Building services among students.

Architecture and design is a field which seamlessly merges diverse skills, ideologies, methods and through design studios students truly covers, navigates and channels their creative instincts in a process based journey to realize their true strengths and potentials.

Design Process is as important as the final outcome of the project, in both quality of the project and presentation method applied.

It is imperative for design mentors to deliver the ideas of problem solving, value addition, innovation and extracting finer details of the project.

Architecture school get their reputation from two things; one from the ideologies of the mentors and faculties and second from the students outcomes.

Hence this initiative will definitely harness the potential of design faculties by developing them as thought leaders and advisors. It ensures consistent quality in the studio which leads to quality design outcomes from students who get the most out of their learning experiences. Cultivating a culture of continual learning will benefit all aspects of the institution.

The objective of this program is to explore the idea of various methods of teaching design among Faculty and provoke thought processes on what is design and how students can arrive at one-off creative solutions.

The program will explore the arena of research methodologies, understanding of various stages of architecture design as a subject and its various techniques of interpretation.

PANEL DISCUSSION WITH ADVANCE LEARNER OF B.VOC

The panel discussion with 3rd year & 2nd year students were focused principally on the evolution of architecture, design and the built environment over the last 5 decades. A similar event was conducted in association with IIID Delhi and IIID Chandigarh Chapters a couple of months ago - which involved 200 students from 8 different colleges across Punjab. This book has been written by Dikshu to commemorate 50 years (or five decades) of his firm's practice.

Architect Dikshu Kukreja, Principal Architect of CP Kukreja Associates - one of India's leading architectural firms - is the author of the book Five Decades of India's Built Environment.

The event Lap of luxury gave the knowledge about the Sustainability in designs in the last 5 decades and continuing the future growth of resources and development of design understandings in Interiors and architecture.
