INSTITUTE ACHIEVEMENT

On the site students were guided about brief and were asked to analyze the site have photo documentation, sketches, write up to document the same.

We at TSAP understand how important it is to experience and understand the site. First year students were accompanied by faculties to Kanheri Caves to get first hand experience on site, context its relevance.

Students measured the site where they shall construct using footsteps, stones, thread and drafted it for their further reference.

STUDENTS ACHIEVEMENT

Student of second year received second prize at Zonal level competition of NASA YUGO which was regarding designing a sustainable costume.

Participants :

1. Bhavi vora
2. Utkarsha Dhamanaskar
3. Shriya Patil
4. Rutuja Patil
5. Shubhasmita sahuo
6. Shreyash Ganechari

Cynefin

*Earth Water Fire Air and Space
The angel of all has come to embrace,
For the earth is a splendid and beautiful place
But the humans never recognize its grace,
All she wants is to make us learn
That unrealistic beauty has to burn,
Hence to keep the nature alive
Feel and heat the elements five.*

Earth, water, fire, air and space are elemental energies inside each of us. When they are aligned life is easy. Healing can be found by acknowledging the elements and recognizing how much we are in touch with these fundamental energies. Hence to express the idea of the following concept the costume has been treated as the idea of preserving and learning through nature. Thus, the attire is an evolution of normal materials to reusable and scratch materials (sea shells, paper, straws, dustbin bags, toothpicks and newspaper) depicting the message to spread the music of nature throughout the world as the grass spreads its roots throughout the land.

YUGO 2021-22
Registration code: IGLI 132
