The How to Festival 2.0 featuring Asian Paints saw the most engagement. No wonder!

Every episode of **The How to Festival** had its special attractions. Masterclass speakers from the profession. Stimulating Q&A sessions. Featured colleges providing nostalgia during a year without physical classes. And, much more.

But the standout performance was the engagement by students with the Brand changes. And with **Team LOCATOR!** Making it a vibrant and purposeful community of professionals.

Here are the winners of the Best Engagers of the Day for episode #8

STUDENTS' TESTIMONIALS

TSAP, even during this situation, strives upon not only academics but also supporting and encouraging its students towards various competitions, hosts seminars and discussions with experienced architects to have a better perspective in the field of architectural technology in the practical world. The faculties here at TSAP focus on supporting the respective students' academics and serve as an essential asset towards skill development in various domains. I am genuinely grateful to TSAP for this immense support.

Jainam Shah
Third Year (B.Arch.)

"ANDC 2020 for me has been one of the most enriching experiences in the lockdown, with the challenge of working online and without being there in person for my team was fear but turned out well in the end. The whole team learned a lot and were supported by our NASA faculty in-charges and the college. Overall when I look back, I feel a wave of positivity from the whole experience and express my gratitude for being a part of the same."

Chitrajyoti Singh
Third Year (B.Arch.)
